## About the FTM Stroker (For the user)

FTM stands for Female to Male. This is a transgender person who was female assigned at birth, and who transitioned to male. Transman for short. Any transman who has begun HRT (hormone replacement therapy) can use this product. The effect of Testosterone on someone born with female genital causes the genitals to reshape and elongates what was the clitoris into a small phallus. This FTM stroker works the same as a sleeve for a male that is cisgendered (a person who's gender identifies with their birth sex). The closed end can create a suction around the phallus, and the ribbed insides allow for more pleasure while stroking.

**Cleaning and storage:** Ultra-soft Silaskin™ is a life-like but porous material. Be sure to use anti-bacterial cleaner, on the inside and outside of this toy before and after every use. For best results, we recommend using Athena's (antibacterial) Mighty Tidy Toy Cleaner (SKU MTT-1235 4 oz. or SKU MTT-2762 8 oz.)

## Lubrication: Lubrication:

Be sure to use ample lubrication with your bedroom toys. For great results try Athena's Perfectly Pure Intimate Moisturizer (SKU 5701). You can find additional lubrication options on our web site or in our catalog. Safe to use with silicone or water based lubricants.
